

NOTICE TO PORT TENANTS

Electrical Repairs

This letter is being sent to notify residents of permanent moorage on docks A, B and C that electrical feeder cables will be replaced during the week of August 27th through September 7th.

C Dock Feeder Cable Replacement

For the tenants of C Dock please be aware that your power will be off from approximately 8am Monday the morning of the 27th of August and is estimated to be restored on the 30th of August. If you feel that you would like to move your boat to guest moorage during this time please contact Melanie at the Port Office for arrangements at office@portofpoulsbo.com.

A and B Dock Feeder Cable Replacement

For the tenants of A and B Dock please be aware that your power will be off from approximately 8am Tuesday the 4th of September and is anticipated to be restored on the 7th of September. Based on the scope of this work it may extend beyond the 7th. In the event that the work takes longer we will notify you early in the week so you may make arrangements to move your vessel to guest moorage. If you feel that you would like to move your boat to guest moorage during this time please contact Melanie at the Port Office for arrangements at office@portofpoulsbo.com.

Work being performed

During an electrical inspection that was conducted in June of this year it was discovered that the feeder cables for Docks A, B, and C were showing signs of grounding. This could be caused by many different factors, but it is believed that this was due to damage during construction in the parking lot. It is important for us to conduct these repairs at this time and appreciate everyone's patience as we work to get it completed in a timely manner.

For any questions or concerns please feel free to call me at 360-779-9905 ext 4, email me at jared.hofer@portofpoulsbo.com or stop by the port office.

**Very respectfully,
Jared**
